60+ years combined technician experience

THE RIGHT FIT

Made for your space — not off the shelf.

Bathrooms are rarely perfectly square or level, and no two are the same. A custom enclosure is measured and made to the exact dimensions and layout of your space — so it fits properly, seals correctly and looks clean.

Whether you want a frameless shower, a walk-in shower, or a framed enclosure with a hinged or sliding shower door, it's made to the exact dimensions of your space.

We handle the whole job: advice, measuring, manufacture, installation and aftercare. One team is accountable for the result, from the first measurement to the finished shower.

[TECHNICIAN MEASURING / GLASS EDGE DETAIL]

STYLES

Choose the style that suits your space.

Every enclosure is made to your dimensions. Start with the structural style, then choose your configuration, glass and hardware.

FRAMELESS
Our most popular look — minimal, modern, 8–10 mm toughened glass with hardware kept to a minimum.

SEMI-FRAMELESS
A balance of structure and clean lines — framing on some edges, open glass elsewhere. Great value for money.

FRAMED
Robust, fully-framed with defined profiles. Durable and well-suited to busy or family bathrooms.

WHY SHOWER HAUS

We do one thing, and we do it properly.

01 **Specialist focus**
Showers are all we do, from a single door to a complete enclosure. Better advice, fewer surprises.

02 **Experienced guidance**
Recommendations from real installation experience — the right product for your space, budget and use.

03 **The right fit**
Every enclosure is measured and made to your space, so it fits and works as it should.

04 **Installation accountability**
We measure, manufacture and install. One team owns the result from start to finish.

05 **Made to last**
Quality materials and correct installation, backed by our workmanship guarantee and aftercare.

Unlike a general installer or a retailer, we take responsibility for the whole outcome — not just the glass.

HOW IT WORKS

Quote to install in 12 days.

1 **Measure & quote**
A specialist visits to measure accurately — usually within 2–3 working days — then we prepare a design and a clear, itemised quote to your specification. Consultations within 50 km of our showroom are free.

2 **Manufacture**
Your enclosure is made to your exact measurements, with a typical lead time of 10–12 working days from your deposit.

3 **Install**
Our technicians fit it properly — aligned, sealed and finished — backed by a three-month workmanship guarantee against leaks.

★ ★ ★ ★ ★

"I've used Shower Haus across three home renovations over 12 years — every time the service has been fantastic, from technical recommendations through measuring, manufacture and installation. A professional, efficient company, and fantastic value for superb quality."

IAN WILLIAMS, UMHLANGA
GOOGLE REVIEW

PEACE OF MIND

Toughened safety glass in 6–10mm to suit the design.

Aftercare
Support after installation.
Aftersales Care →

ACCREDITATION LOGOS:

TRADE

Working with architects, designers and builders.

Competitive rates, reliable specification, site compliance and accountability.

QUESTIONS

Common questions about custom showers.

What types of shower do you make? ×
We design and install frameless, semi-frameless and framed shower enclosures, walk-in showers and shower screens, plus hinged, pivot and sliding shower doors. Every one is made to your exact measurements. For standard sizes, spares and accessories, see our online shop.

How much does a custom shower cost? ×
Because each enclosure is made to your space and specification, pricing is quoted per project. Use the configurator or book a measure for a tailored quote.

How long does it take? ×
Manufacture takes about 10–12 working days from payment of your deposit. We'll confirm timing when we quote.

Do you measure on site? ×
Yes. A specialist measures accurately before manufacture, usually within 2–3 working days. Consultations within 50 km of our showroom are free; beyond that a call-out fee applies.

What glass do you use? Is it safe? ×
Toughened safety glass, in 6 / 8 / 10 mm to suit the design.

Is there a guarantee? ×
Yes. Our installations carry a workmanship guarantee against leaks: if an installation issue arises within three months, we'll return and fix it free of charge.
